

This year's most exciting seminar for increased development and market share within the business sector Energy

MIDNIGHT SUN CONFERENCE

Welcome to Narvik, Norway 15th-16th June for the third seminar and workshop for companies, organisations and participants within the field of Renewable Energy and Energy Efficiency in the North. The event will cover the following areas:

- Bio Energy
- Hydropower
- Energy Efficiency
- Wind Energy
- Solar Power

The seminar and workshop will provide you as participant with excellent opportunities to initiate cooperation and develop business with other organisations.

The groups of companies and experts that are formed during the two days in Narvik will be actively supported in the process of developing project ideas leading to commercialization of products and services. The objective is to create new projects that provide added value and accelerate development of the participating organisations and the business sector energy in the North.

A preliminary program will be distributed during March-April. Also check out the web page: www.noe-energy.net

There will be a special focus on the use of photovoltaics (PV) in cold climate. The challenges and possibilities of this issue will be explored in parallel sessions. For more information, see the following page.

Please register before Wednesday 1st of June. The seminar and workshop are free of charge. Online registration is open at www.noe-energy.net/register.asp

For more information, please contact:

Norway: Geir Frantzen, geir.frantzen@bedriftskompetanse.no Phone: (+47) 90721191

Finland: Pirjo Koskiniemi, pirjo.koskiniemi@businessoulu.com Phone: (+358) 40 592 5375

Sweden: Conny Hökfors, conny.hokfors@centek.se Phone: (+46) 920-49 17 73

More information about the PV session on the following page

MIDNIGHT SUN CONFERENCE PV IN COLD CLIMATE

Norut Narvik invites you to a seminar session focused on photovoltaics, where we will explore the challenges and possibilities of using PV in cold climates and at northern latitudes.

The first day of the conference, our invited key note speakers will introduce different aspects of the subject.

Dr. Joakim Widén, Department of Engineering Sciences, Uppsala University

Dr. Thomas Huld, Joint Research Centre of the European Commission

Steve Ransome, PV consultant, Steve Ransome Consulting Ltd.

During the second day workshop, we would like to invite our seminar participants to present their own work. This will followed by a workshop on the future of PV in the North.

If you would like to make a presentation (around 15 minutes), please send us a brief description of your work. (Please note that we cannot guarantee that all presentations will be accepted.)

For more information about the PV session, please contact:

Hanna Persson, project leader, hanna@norut.no Phone: (+47)7695 6223

Join us for an inspiring seminar in Narvik, and perhaps a glimpse of the midnight sun!

The PV session is supported by the VRI Nordland and ColdTech projects.

The Midnight Sun Seminar is arranged in cooperation with NoE – Energy in Cold Climate, an international network within the Barents region.
